Notice To Subscribers.—When a red cross-mark appears on the margin of your paper it is placed there to notify you that your subscription has expired. If you desire the paper to be discontinued not to be of the fact immediately, otherwise it will be continued at your expense.

Persons who have the paper brought to them by the carrier, and who are monthly subscribers, are hereby notified that hereafter no subscription will be received for a less time than six months, payable in advance.

M. C. R. R.—Trains pass Bolivar as follows: Passenger train, south, 3:00 p. m.; passenger train, north, 12:00 o'clock at night.

FUNERAL.—The funeral services of the late Miss Ann Eliza Fitzhugh will take place at St. James' church at 11 o'clock this a. m. The public are invited to attend.

In another column will be found a communication from the Monumental Society of Hardeman county. It will be seen that an appeal is made—let it be responded to without delay. In a few weeks the contract for the monument will be let out, and those who propose to contribute should do so at once. Persons possessing information in regard to the soldier dead of Hardeman should communicate the same to A. T. McNeal, Secretary of the society, Bolivar. Note name, age, company, regiment and manner of death, where, and under what circumstances.

LUCKY NUMBER.—Our friend "Jenkins" says that 690 is accounted the lucky number! but it seems that ticket 58,600 drew the Crosby Opera House. John Meyer, a saloon keeper, of Chicago, was the fortunate possessor. He thus comes in possession of property worth \$200,000. Shades of Michael Mordecai!

IMPORTANT.—A valuable synopsis of the entire proceedings of the January term of the County Court of Hardeman will be found on the first page of this week's Bulletin.

RADICAL POW WOW.—The radicals of this State will assemble in convention at Nashville on the 22d of next month, for the purpose of nominating candidates for office at August elections.

CHANGE OF NAME.—Mr. John T. Graham, formerly with the firm of Adams, Neilson & Co., can be found at the store of Fleming & Usery, "Miss Miller's" old stand, where he would be pleased to see his numerous friends and all those desirous of purchasing dry goods, hardware or groceries.

We call the attention of the public to the mercantile house of Adams, Neilson & Co. They are offering goods, wares, etc., at very low figures, as they wish to make room for the approaching Spring trade.

See the advertisement of Elson's mammoth cheap store, 279 Main street, Memphis. Great inducements are offered, and premiums awarded to purchasers.

The Fayette Falcon, printed at Somerville, this refers to the claims of Hon. J. W. Leftwich for re-election to the position which he is at this time so ably filling: "We understand that Hon. John W. Leftwich, our present able representative will be a candidate for re-election. We think it due him that he should be returned. He certainly possesses the ability; is a man of untiring zeal and energy and will doubtless do all in his power for the benefit of his constituents. Mr. Leftwich has discharged his duty faithfully thus far and we doubt not will continue faithful, and we hope to see him re-elected."

Southern railroads are said to be in debt to the Government six and a half millions for rolling stock sold them on credit. How much the Government destroyed for them during the war is not stated.

National Banks.
The national banks have a circulation of some \$300,000,000, to obtain which they have deposited a trifle over that amount in government bonds with the treasurer of the United States. Upon these bonds they receive interest in gold, at the rate of six per cent per annum, while they have the use of this immense circulation, equal to the purchase of their bonds for nothing. This accumulation they lend the people, and are authorized to charge interest for it at the rate of ten per cent per annum, and this six per cent in gold, equal to nine per cent in currency, swells the total interest which they receive to ninety per cent per annum upon their nominal capital. But their bonds scarcely cost them more than fifty cents on the dollar, in actual bona fide money, and hence their nominal capital is about as twice as much as their actual capital, and instead of nineteen per cent, they actually receive thirty-eight per cent upon their real paid in capital. This is upon bonds and circulation alone, and does not include the immense sums which they realize from the buying and selling of exchange, the immense profits accruing from the use of the heavy government balances which are left with them from time to time, neither the enormous income derived from the use of their individual deposits, etc.

Now when the government returns to the banks, in the shape of notes of issue, all the money they have invested in the bonds deposited, why should the government allow them also the interest upon these bonds? It is an absolute and undeserved gratuity, paid out of the federal treasury to associations which have performed no service, and promise to perform no service, in return for it. Now, the interest upon this \$300,000,000 in bonds amounts to \$18,000,000 per annum in gold, or \$9,000,000 every six months, for the interest is payable semi-annually. Nine millions in gold every six months is a good deal for the people to throw away, with their enormous public debt and the grievous taxation which is pressing like a mountain of lead upon their shoulders, especially when it brings them not one single advantage or benefit in return. We are aware that while millions are being wasted like water, nine million seems a sum so small that our tax-ridden people scarcely think it worth their while to look after it. But this is not simply nine million. It is nine million every six months, as long as this pernicious system shall have an existence. And besides, a steady sink of nine million every six months, without cessation or interruption, all the other acts of wasteful extravagance and misappropriation of the people's money during the war are dwarfed into insignificance. It is a leak through which the wealth of a universe might disappear.
